Education

BSc in Computer Science and Engineering

American International University-Bangladesh (AIUB)

2017-2021 *Dhaka,Bangladesh*

*CGPA **3.87** out of 4.00*

Higher Secondary School Certificate

Dhaka Residential Laboratory College

2014-2016 *Dhaka,Bangladesh*

*GPA **5.00** out of 5.00*

Course/Certificates

BITM Web Application Development - Dot Net

BASIS Institute of Technology & Management

Sep, 2000 ***Certificate***

Docker and Kubernetes: The Complete Guide

Udemy

Ongoing ***Course***

Md. Asiqur Rahman Khan

Full-Stack Software Engineer

Results-driven Software Engineer with 4+ years of expertise in designing and implementing banking applications. Strong technical proficiency and leadership skills to drive successful project outcomes.

Work Experience

Software Engineer

Datasoft Systems Bangladesh Limited

Jan, 2021 - Present *Dhaka, Bangladesh*

Projects

Agent Banking

- Build with **Asp.Net Core** and **MSSQL/Oracle** as the database.
- Collected client requirements, developed key features, and assisted **team** member.
- Enables agent-based banking services, including transactions, account management, and loan processing etc.

eKyc

- Developed using **Asp.Net Core** with **MSSQL/Oracle** as the Database.
- Gathered client requirements, contributed to development, and supported the **team**.
- Facilitates automated identity verifica tion and digital onboarding for financial institutions.

eThumb

- Build with **Asp.Net Core** and **React**, with **MSSQL** as the Database.
- **Sole** developer, focusing on biometric authentication module development.
- Provides biometric authentication and identity verification services.

E-Proxy Gateway

- Build with **Asp.Net Core** with **Yarn.**
- **Sole** developer, focusing on API gateway service.
- Centralized gateway for routing and managing API requests securely.

Video e-Kyc

- Build with **Node Js** and **React**, with **MySql** as the Database.
- **Sole** developer, responsible for implementing video verification and face-matching.
- Enables real-time video identity verification for digital customer onboarding.

OCR Service and Liveliness Check

- Implemented in **Python**.
- **Sole** developer, responsible for designing and optimizing OCR models and liveness detection.
- Extracts text from National ID Card and prevents fraud by ensuring real-time user verification in authentication systems.

Honors/Awards

- **Championship in Learnathon at Datasoft**
  Datasoft Systems Bangladesh Limited
  July, 2024 *Prize*
- **Best Creative Developer at Datasoft**
  Datasoft Systems Bangladesh Limited
  Oct, 2023 *Certificate*
- **Best Paper Award From IEEE Conference**
  IEEE
  May, 2022 *Paper* *Award*
- **Dean's List Award From AIUB (3 Times)**
  American Internation University-Bangladesh
  2016-2020 *Certificate*

Technical Skills & Tools

- **Programming Language** : C#, Javascript (Node.js, React), Python, SQL
- **Databases** : MSSql, MySql, Oracle
- **Cloud & Devops** : CI/CD (Github Actions), SEQ (Structured Logging)
- **Version Control** : Git, Github.
- **AI Tools** : Gemini-CLI, Coipilot, OpenAI API, Deepseek-r1, Hugging Face, Unsloth, Grok, Kilo-Org/KiloCode

Freelance Software Engineer

Self-Employed

Feb, 2019 - Present *Worldwide*

Projects

- **Training Management System with Payment Gateway**
  - Build with **React Js** and **Node Js**, with **MySql** as the database
  - Facilitates seamless course enrollment, payment processing, and progress tracking.
  - Provides an intuitive platform for instructors to manage courses and interact with students.
- **Chatika - AI Bot**
  - Developed with Node Js and React, using MySql as the Database
  - **Sole** developer responsible for the entire project, from backend to frontend by **OpenAI** and **Deepseek-r1**
  - **AI-powered** chatbot for customer support, complaint handling, and account man agement.
- **OMR Checker**
  - Developed using **Python** for automated OMR sheet processing.
  - **Automates** exam evaluation by detecting and analyzing marked answers
  - Ensures accuracy and efficiency in large-scale examination assessments
- **TMB Mortgage Broking**
  - Developed using **React Js** and **Node.js** with **MySQL** as the database.
  - Facilitates mortgage brokers in applying online with document submission.
  - Enables TMB to efficiently process applications and manage approvals digitally.

Areas Of Expertise

- **Project Management**
- **Proficient Troubleshooting**
- **Scrum & Agile Methodology**
- **Software Development Lifecycle (SDLC)**
- **Team Leadership & Supervision**
- **Web Application Design & Development**
- **Technical Process Improvement**
